## Sysco Generates US\$4M+ in Claimback Costs of Non-Compliant Supplier Products

Sysco streamline raw material claimbacks with automated calculations, real-time audits, and photographic evidence. Opening and tracking credit requests to recover losses faster while holding suppliers accountable for quality issues.

Learn More

### Templatize Audits & Build Workflows

Standardize audits with customizable templates, advanced scoring, triggers and automated grading, enhancing consistency and efficiency.

### Reduce Costs & Accelerate Product Release

Automate quality systems to reduce manual process costs, enhance operational excellence, and improve supply chain visibility, leading to faster market entry.

### Boost Frontline Engagement with Mobile

Empower your team with a user-friendly mobile app for real-time reporting, issue collaboration, and feedback sharing.

### Seamlessly Map Your Facilities

Leverage our asset management system to map every aspect of your facilities, from entire sites to individual production lines.

### Streamline Issue Tracking & Evidence Management

Automate issue identification, follow-up, and reporting with workflows for remediation strategies.

### Centralize Document Management

Consolidate SOPs, evidence, policies and more in an extensive document library.

### Improve Supplier Quality

Strengthen supply chain collaboration with qualified suppliers, ensuring compliance, reducing waste, and increasing throughput.

### Leverage Quality Data + PowerBI Integration

Access real-time dashboard metrics for comprehensive insights, enabling quick comparisons, data analysis, and enhanced responsiveness to changes.

“AuditComply is playing a crucial role in changing the quality & compliance culture. A world class system, a game changer in our industry. We required a solution that was mobile, automated our data and could be accessed in real time to ensure we are meeting quality standards across the supply chain. AuditComply delivered. Everyone that encounters AuditComply immediately loves it.”

-Johnny Elgin, Quality Manager, Sysco

## Keeping Your Quality, Workforce, and Manufacturing Under Control

### Engage Suppliers

Improve relationships & collaboration with dedicated supplier portals

### Captivate Frontline Workers

Improve engagement & happiness with an easy-to-use solution

### Reduce Waste

Minimize raw material, energy or product waste at every stage

### Lower Cost of Quality

Improve processes & prevent quality issues before they occur

## Mitigate Risk, Drive Quality & Increase Throughput

Reduce costs, release products faster and ensure consistent, reliable quality every time.
